2. **Solar Panel Installation on University Buildings**

Focusing on clean energy usage, solar panels are installed across university buildings to help reduce electricity consumption and enhance energy resource efficiency.

3. **Climate Change Data Collection System**

Development of a data collection system for climate change within the university. This database can be accessed at https://green.kru.ac.th/electric/air.php.

4. **Campaign Promoting Reusable Cups and Bags**

Promoting the use of environmentally friendly materials such as reusable cups and cloth bags to reduce plastic usage and waste within the university.
