Project on Landscape Improvement to Expand Green Areas by Academic Resource and Information Technology Center (ARIT), Kanchanaburi Rajabhat University

Academic Resource and Information Technology Center (ARIT), Kanchanaburi Rajabhat University, always emphasizes environmental development, management, pollution prevention, efficient use of resources and energy, and appropriate use of technology. ARIT manages to sustainably propel and improve the organization's environment, which has contributed to greenhouse gas reduction. This project has also allowed all staff to take part in reducing environmental problems and preparing for an eco-friendly office and green university. On this occasion, ARIT carried out a project on landscape improvement to increase green areas inside and outside the buildings to create a friendly atmosphere for providing service and the 5S activities.
